Marilyn

Vertical Showcase

Refrigerated/Frozen Food Display with Countertop & Wine Options

MARILYN

Features: An innovation of style and technology makes Marilyn an "icon" among vertical showcases.

New and elegant, Marilyn meets the most demanding requirements for both refrigeration performance and low operating costs, thanks to high efficiency R290 gas.

Modern serigraphs on the door, on the sides and on the back, together with the hidden handle, make the visual impact pleasant and unique. The bottom panels are easily removable for incorporation into your custom finish.

On request, it is available with adjustable color LED lighting, from 'cold' to 'warm' light, to give the best light to products.

Front door: low emissivity tempered structural glass

Glass sides/back/shelves: tempered

Casters: standard with adjustable feet

Frame: anodized aluminum - black, white or gray

Door lock: standard

Compressor: internal standard

Evaporation: automatic

Thermostat: electronic Dixell control

Lighting: LED (color adjustment optional)

Electric: 230V/1/15A, 115V optional

Refrigerant: R290

Defrost: automatic with hot gas
